IL BOARD STATEMENTS

A. SAFETY MISSION STATEMENT

The Clark County School System believes that those within the school community are entitled to a safe and secure environment while pursuing academic excellence.

B. POLICY STATEMENT

The Board of Education's primary concern is that students who wish to learn can do so in an environment conducive to learning and that disciplinary means be employed when individuals attempt to destroy or deny such an environment. A code of conduct applicable to all students has been developed to enhance this environment.

The code of conduct provides for consistent treatment for all students, fairness as required by constitutional due process, an atmosphere of open communications, clearly understood rules, and the encouragement of behavior which will enable students to develop to their fullest potential. Students will be responsible for this code in school, on the way to and from school, on school buses and at school-sponsored or related activities both at home and away from home. It is expected that sound, fair, and equitable judgment will be used by all concerned in the application of this code of conduct without regard for race, gender, or disability.

Compliance with the standards of this code is necessary to provide:

- Orderly operation of the schools;
- A safe environment for students, district employees and visitors to the schools;
- Opportunities for students to achieve at a high academic level in a productive learning environment;
- Assistance for students at risk of failure or of engaging in disruptive behavior;
- Regular attendance of students; and Protection of property.

This code applies to all students in the District while at school, on their way to and from school, while on the bus or other District vehicle, and while they are participating in school-sponsored trips and activities. The Superintendent/designee is responsible for its implementation and application throughout the District. The Principal is responsible for administration and implementation of this Code within his/her school in a uniform and fair manner without partiality or discrimination.

Each school/council must select and implement appropriate discipline and classroom management techniques necessary to carry out this Code and shall provide a list of the school's rules and discipline procedures to the students and parents.

Teachers and other instructional personnel are responsible for administering Code standards in the classroom, halls, and other duty assignment locations.

To promote the full implementation of conduct standards and maximize safety in the school environment, the Board of Education requires all employees to make supervision of all students at all school activities a top priority among their assigned duties. The younger the child, the greater the need for adult guidance and protection.

C. PHILOSOPHY OF RIGHTS AND RESPONSIBILITIES

The protection and safeguards of the United States Constitution, and more particularly the Bill of Rights, applies to all students. Responsibility is inherent in all rights. No student or other person involved in the public schools can realize his rights unless he also exercises the self-discipline and care to afford all others the same rights and not allow his own actions to infringe on the rights of others. The school is a community of individuals who have the right and responsibility to know the basic standards of conduct and behavior expected.

Students, families, educators, and the community share the responsibility for student success and for providing safe schools to facilitate academic achievement.

Teachers/school officials should involve parents at the earliest stage when a student shows signs of serious behavior problems.

D. ANNUAL PROVISIONS FOR CODE OF CONDUCT REVIEW

1. A district committee may be charged with reviewing the entire document and make recommendations for changes in writing to the Superintendent or his designee for compilation no later than June of each year.

2. The Superintendent or his designee shall review the recommendations and submit for review the revised code to the Board of Education by the June Board meeting.

This is in accordance with KRS 610.345.

E. STUDENTSEARCHES

School officials have the right to search students or their property if the officials have **reasonable suspicion** that the student may be in possession of something that violates school rules or endangers others. The purpose of searching students, their belongings, lockers, desks, or automobiles is to protect the property and safety of others and/or to maintain the ongoing educational process of the school. Students have the protection, as do all citizens, against unreasonable search and seizure of their property.

F. POLICE OFFICERS IN THE SCHOOL (CCPS Board Policy 09.4361)

School officials shall cooperate with law enforcement agencies in cases involving students (i.e., serving of subpoenas, juvenile petitions, warrants, or taking students into custody.) As soon as possible, officials shall endeavor to notify the parents of students who are arrested.

1. Teacher;
2. Principal;
3. School Council, where appropriate;
4. Superintendent;
5. Board;

The order of appeal shall not be construed to mean that students are not free to confer with the Superintendent or Board whenever they so wish. However, if the grievance concerns discipline of an individual student, the Board may, on a case-by-case basis, determine if it will hear the grievance based on whether the facts presented in the written grievance fall within its discretion or authority. If there is a question as to whether the grievance is within the Board's discretion or authority, the Board will consult with legal counsel.

Procedures

Grievance procedures shall address, but not be limited to, the conditions for filing a grievance, time limitations for the filing and the appeal of a grievance, and a process for the orderly review and appeal of each individual grievance.

Exceptions

Harassment/Discrimination allegations shall be governed by Policy 09.42811. Federal law requires the District to implement separate and specific processes for responding to complaints/grievances about Title I programs and to those alleging discrimination in the delivery of benefits or services in the District's school nutrition program.

IV. DISCIPLINE (KRS 160.340) (CCPS Board Policy 09.43)

A. TEACHERS

Discipline problems which are of a common or minor nature are handled by the classroom teacher who may use a variety of methods including the following:

1. Verbal warning reprimand
2. Individual conference
3. Notifying parents by telephone or letter
4. Temporary isolation within classroom
5. Referral to counselor and/or mental health therapists
6. Temporary withdrawal of privileges
7. Refer to peer mediation-(if applicable)
8. Detention
 - a) When a pupil is detained at school beyond the normal dismissal time, the teacher shall give appropriate consideration to factors of pupil transportation, traffic patterns, weather, and any other extenuating circumstances.
 - b) The age and grade level of the pupil shall be considered in determining the length of time a pupil may be detained after school. Under no circumstances should a pupil be detained longer than one hour. In the event that a pupil is detained beyond 15 minutes after the normal closing time, the parents or legal guardian shall be notified.
 - c) Prior notice should be given to the parents or legal guardian when a student is to be detained after school.
 - d) Precautions shall be taken to see that a student who is dependent upon bus transportation is not left without a way home.

B. REFERRAL Discipline problems which are of a serious nature must be referred to the principal or his/her designee. The staff member making the referral shall deliver in writing the following information:

1. name of student,
2. class,
3. date and time,

4. reason for referral, and
5. teacher signature.

C. ADMINISTRATORS

Disciplinary problems referred to the school administrator may be handled using the following options:

1. Counsel with student regarding the offense to correct the behavior and prevent its reoccurrence.
2. Set up a conference with the parents and/or guardians who may include the referring teacher, counselor, or other staff members.
3. Refer to counselor and/or mental health therapists.
4. Refer to peer mediation, if applicable.
5. Detention/Saturday School.
6. Extended loss of school privileges.
7. In-school alternative which is the temporary isolation of a student from one or more classes while still maintaining the student's educational program under proper supervision. In-school alternative may be imposed by the principal or designee for violation of school rules or policies where the infraction does not necessarily warrant removal from school by suspension.
8. Probation (CCPS Board Policy 09.4342)
The principal or his/her designee may specify that the student may be readmitted to class upon probation, conditional upon good behavior during a specified period. Probation may be imposed for infractions of school rules or policies where the infraction does not necessarily warrant removal from school by suspension. Written notice of probation shall be given to the student and his/her parent(s) or guardian(s) and shall be placed in the student's file. Should the student breach the conditions imposed for probation, the student may be suspended from school, or may be subject to any of the other authorized actions pursuant to the Discipline Policy.
9. Suspension (KRS 158.150) (CCPS Board Policy 09.434)
 - a) Suspensions may be affected by the principal, assistant principal or by the Superintendent for a period not to exceed ten (10) school days.
 - b) If a suspension is warranted, the student and parent/guardian must confer with the Principal or his/her designee, in order for the student to be reinstated in school.
 - c) Subsequent suspensions may require that the student, parent/guardian, and Principal meet with the Superintendent or his/her designee at the Central Office.
 - d) Further violations may warrant a hearing before the Board of Education which can lead to expulsion.

Policies regarding work missed during a suspension are under the authority of individual school councils. When a student is suspended, he/she is not allowed to be on campus for any reason without permission of the administration.

Allowing parents/guardians to reinstate their children the day following a suspension makes evident that the importance of students being in school and displaying acceptable behavior is valued. Steps have been developed to help students be aware of the seriousness of unacceptable behavior. Therefore, suspensions cannot be looked upon lightly. Continued misbehavior will lead to removal from school.

D. BOARD

1. Expulsion is an act carried out only by the Board of Education by a majority vote that expels any student from school for violation of the regulations or rules established by the Board, including without limitation, the Discipline Policy, for immorality, or when the presence of the pupil is detrimental to the best interests of the school. No expulsion shall be made until the parent, guardian, or other person who has legal custody or control of the student and the student has had an opportunity to have a hearing before the Board of Education.

2. A student suspended or expelled is prohibited from entering any school or any school grounds (except for a prearranged conference with an administrator), attending any day or night school function (including weekend functions) of the Clark County Schools, or riding a school bus during the term of the suspension. Violation is cause for expulsion.

E. SUSPENSION AND EXPULSION PROCEDURES (KRS 158.150)

The basis to suspension and expulsion of students in the public schools is:

1. All pupils admitted to the common schools shall comply with the lawful regulations for the government of the schools. Willful disobedience or defiance of the authority of the teachers or administrators, use of profanity or vulgarity, assault or battery or abuse of other students or school personnel, the threat of force or violence, the use or possession of alcohol or drugs, stealing or destruction or defacing of school property or personal property, the carrying or use of weapons or dangerous instruments, or other incorrigible bad conduct on school property as well as off school property at school-sponsored activities constitutes cause for suspension or expulsion from school.
2. A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:
 - a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;
 - b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and
 - c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.

These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process

procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

3. The Superintendent, principal, assistant principal, or head teacher of any school may suspend a pupil but shall report such action in writing immediately to the Superintendent and to the parent, guardian, or other person having legal custody or control of the pupil. The Board of Education of any school district may expel any pupil for misconduct as defined in subsection (1), but such action shall not be taken until the parent, guardian, or other person having legal custody or control of the pupil has had an opportunity to have a hearing before the Board. The decision of the Board shall be final.

F. ALTERNATIVE EDUCATION (KRS 159.051) (CCPS Board Policy 09.4341)

For conduct that disrupts the educational process or community, a student may be assigned to the Day Treatment Program by the Superintendent or Court System. The duration of assignment shall be fixed by the Principal of the school, or the Superintendent, with 90 days being the recommended duration. A referral packet will be completed by referring schools if students are being considered for Day Treatment.

The Principal or the Principal's designee shall notify the parents of their child's assignment to the Day Treatment Program upon receiving word from the Superintendent or the Court System.

During the Intake Meeting, expectations will be set forth in documentation. These expectations include code of conduct, phase progressions, and required treatment sessions with counseling staff.

Day Treatment students shall receive educational services as afforded to all students, but shall be isolated from the regular school setting. Opportunities shall be provided for the student to continue regular school work under the supervision of the school staff, and counseling services shall be provided to address school-related problems or issues.

G. SPECIAL EDUCATION

Disciplinary Actions Involving Children and Youth with Disabilities

It is important to remember that children with disabilities who are eligible under the Individuals with Disabilities Education Act (IDEA) are part of the general education student body of the school district. As such, children with disabilities are subject to the disciplinary action described in the school district's policies and procedures or code of conduct handbook subject to the findings of a manifestation determination conducted by the child's Admissions and Release Committee (ARC). Penalties for infractions against the district's disciplinary code cannot be more severe for a child with disabilities than they would be for a child without disabilities.

Specific protections provided by IDEA to children with disabilities with regards to disciplinary actions, include but are not limited to: the child may not be deprived of the services specified in his or her IBP or denied access to the general education curriculum for greater than ten (10) school days during a school year without intervention by that child's ARC; by no later than the eleventh day of a disciplinary action changing

the placement of a child with a disability, the ARC must have met and made a manifestation determination, conducted a functional behavioral assessment, and determined appropriate services and settings. In addition, the ARC must determine an appropriate interim alternative educational setting if a child commits a drug or weapon offense.

Following is information to consider in taking disciplinary action when a child with a disability, eligible for services and protections under IDEA, commits a violation of the district's code of conduct:

I. Does the district's code of conduct specify a penalty for the violation? If yes:

- a. The penalty for the child with a disability cannot be more severe than the penalty for a child without a disability who commits the same infraction(s);
- b. Has the child with a disability previously been removed from his or her ARC determined educational placement and services as recorded in the IBP or from access to the general education curriculum as the result of a disciplinary action this year? If yes, for how many days?
- c. Does this infraction require the child be removed from his or her current ARC determined educational placement for more than 10 cumulative school days during this school year?
 1. If no, school personnel may impose the same penalty it would for a child without a disability.
 11. If yes, then this disciplinary action constitutes a change in placement that requires involvement of the child's ARC. On the tenth (10th) day of the removal the ARC must conduct a manifestation determination to ascertain if regular suspension or expulsion procedures apply, and if so, how the child will continue to receive the services called for in his or her IBP, including access to the general education curriculum and the setting (placement) for these services. This can be accomplished through an alternative educational setting, another setting (such as a different placement option, different service provider, more restrictive setting, etc.), or suspension, as long as the appropriate services are provided and it is the ARC decision. The ARC has additional responsibilities described in Item 3 below.
2. Has the child with a disability violated the district's code of conduct through the use, possession, sale, or solicitation of Drugs as identified in 21 U.S.C. Section 812 (does substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury (not including a pocket knife with a blade less than 2 ½ inches) as identified in 18 U.S.C. Section 930? If yes: (Note, for disciplinary behaviors that do not involve a drug or weapon offense as defined here, refer to Number I above.)
 - a. The penalty for the child with a disability cannot be more severe than the penalty for a child without a disability who commits the same infraction(s);

- b. Does this infraction require the child be removed from his or her current ARC determined educational placement?
 1. If no, data are not reported on this incident.
 11. If yes, school personnel may unilaterally order a change in placement to an interim alternative educational setting for the same amount of time that the child without a disability would be subject to discipline, but for not more than forty-five (45) days. However, the ARC must meet and determine the appropriate interim alternative educational setting where the child can receive the services called for in his or her IEP and have access to the general education curriculum. The ARC determines the setting for receiving the services, but cannot override the decision by the school personnel to remove the child from his or her current educational placement prior to the end of the forty-five (45) days through a manifestation determination, the ARC ascertains the behavior resulting in this disciplinary action is related to the child's disability. If so, the child is no longer subject to disciplinary action for that particular incident and behavior and the ARC determines the child's placement in the least restrictive environment. The ARC may return the child to his or her previous educational placement or may decide upon another appropriate educational placement.
3. What is an interim alternative educational setting? An interim alternative educational setting, as the name implies, is an alternative to the normal educational settings a school typically uses for educating its children. This term is not specific to children with disabilities. Examples of interim alternative educational settings might include an in-school suspension program, an alternative learning center, separate facility for educating at-risk students, and or a home or hospital environment. Please note that this is not an exhaustive list. An "interim" alternative educational setting is intended as a "short term" solution and is not intended to be a long-term option.

Adequate notice shall be provided to students, parents, and guardians, school employees, and the general public. Signage shall be posted on or in all property, including any vehicle that is owned, operated, leased, or contracted for use by the Board, clearly stating that the use of all such products is prohibited at all times and by all persons on or in the property. School employees shall enforce the policy. I. POSSESSION OF WEAPONS (KRS 527.070) (CCPS Board Policy 5.48)

object which can be classified as a dangerous instrument or any instrument that looks like a dangerous weapon.

Violation of this policy, including those involving instruments that are not actual weapons, shall constitute reason for suspension or expulsion, and referral to the legal authorities.

J. EXTORTION

The solicitation of money for something of value from another student, regardless of the amount, in return for protection, or in connection with a threat to inflict harm.

B. BUS CONDUCT

Transportation by school bus is a privilege provided by the Clark County Board of Education. Discipline problems are referred to the school principal by the bus driver. Students who violate the rules may temporarily or permanently lose the privilege of riding the bus. If a student loses this privilege, the parent is responsible for transporting the student to and from school. In order to ensure the safety of students being transported, the following rider rules have been adopted:

C. BUS RULES

At the Bus Stop

- Arrive at the assigned bus stop five to ten minutes before the bus time. The driver is not permitted to wait for students.
- Keep all articles off the roadway and remain well clear of traffic.
- Do not damage private property.
- Do not disturb residents by making excessive noise.
- Fighting or damage to property may be subject to action by local police as well as from school officials.
- Wait until the bus stops and then walk to the bus.
- Students living on the opposite side of the street from the bus stop should wait on the opposite side of the street until the bus arrives and the driver signals them to cross.

Bus Evacuations

Evacuation drills will be conducted four times each school year. The drill is designed to keep students familiar with proper procedures to follow in case of an emergency.

Removal from Bus

Whenever the bus driver determines the existence of an unsafe condition, the bus must be stopped until the unsafe condition no longer exists. Assistance may be obtained by contacting the Transportation Division when the unsafe condition is beyond the capability of the driver to correct. If needed, the student(s) will be removed and transported by separate bus to the school or home. Information may be obtained by calling 744-5620.

Unsafe Condition

Any condition, which could result in an injury to a student, is considered unsafe. Some examples are:

- Never cross the street behind the bus.
- Wait until the driver signals you to cross the street.
- Cross the street at least 10-15 feet in front of the bus.

- When getting on and off the bus, students should never stop to pick up dropped items, unless they have first notified and gotten the approval from the driver to pick up the item.

Stopped School Buses

School buses stopped for the purpose of loading or unloading students will have the "stop arm" activated. Any time the stop arm is activated and the red overhead lights are flashing, all traffic must stop. When the stop arm is activated the bus cannot be passed, even on school property. The exception to any of the above is when the bus is on a road with four or more lanes - traffic going in the opposite direction does not have to stop.

School bus drivers are encouraged to file complaints with the local Police Department when violation occurs.

Unless the Principal determines that extenuating circumstances exist, requests for date(s) falling within State or District testing periods shall not be granted.

The Principal's determination may be appealed to the Superintendent/designee whose decision may then be appealed to the Board under its grievance policy and procedures.

Unless the school receives the required documentation, the absence shall be counted as unexcused. Any absence not properly documented and accepted by the Principal will be unexcused.

MAKE-UP WORK

Any student who has been reported as a truant two (2) or more times is an habitual truant" Principal/Designee shall follow these procedures regarding truancy and habitual truancy:

VIII. NOTIFICATION OF FERPA REQUIREMENTS

The Family Education Rights and Privacy Act (FERPA) affords parents and "eligible students" (students over **18** years of age or students who are attending a postsecondary institution) certain rights with respect to the student's education records. They are:

1) The right to inspect and review the student's education records within forty-five (45) days of the day the District receives a request for access.

Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

2) The right to inspect and review logs documenting disclosures of the student's education records.

Except for disclosure to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosure to the parent or eligible student, FERPA regulations require the District to record the disclosure.

3) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student's privacy or other rights.

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

4) The right to provide written consent prior to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

Exceptions that permit disclosure without consent include:

- a) Disclosure to school officials with legitimate educational interests. A "school official" is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a volunteer, or an outside person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility to the District.
- b) Upon request, disclosure of education records without parent/eligible student notice or consent to officials of another school district or post-secondary institution in which a student seeks or intends to enroll or is already enrolled or to other entities authorized by law so long as the disclosure is for purposes related to the student's enrollment or transfer.
- c) Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.
- d) Disclosure to state and local educational authorities and accrediting organizations, subject to requirements of FERPA regulations.

5) The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parent/eligible students.

To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.

- 6) The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U. S. Armed Forces and its services academies, the Kentucky National Guard, and the Kentucky Army National Guard.**

Unless the parent or secondary school student requests in writing that the District not release information, the student's name, address, and telephone number (if listed) shall be released to the Armed Forces recruiters upon their request.

- 7) The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.**
